Following on from our Unpaid Carers Action Learning Sets, which we ran in 2025, we will be running another three sessions in June and August 2026. At these sessions we will bring back together unpaid carers, people working with carers from service providers, and Local Authorities to build on our learning from our previous sessions around the flexibility of budgets for unpaid carers. We will also use these sessions to test out the **Unpaid Carers toolkit** that we created from the information and support we received from attendees at the Action Learning Sets in 2025.
